

Adult Measures Summary

Measure	Denominator	Numerator	Beacon Goal	Exclusions
BMI NQF-0421 CORE	Count of pts 18-64 y/o with a visit in the last MY	BMI percent documented	50% or more have a BMI calculation or improve from baseline rate by 50%*	<ul style="list-style-type: none"> Terminal Illness Pregnancy Patient Reason Medical Reason System Reason
	Count of pts 65 y/o and older with a visit in the last MY	BMI percent documented	50% or more have a BMI calculation or improve from baseline rate by 50%*	<ul style="list-style-type: none"> Terminal Illness Pregnancy Patient Reason Medical Reason System Reason
Diabetic Management BP: NQF-0061 A1C: NQF-0059	Count of pts 18-75 who have been diagnosis with diabetes in the last 2 years <ul style="list-style-type: none"> With one or more outpatient or ER visit OR Two or more outpatient visits with a DM diagnosis OR DM drug RX 	Most recent BP <140/90	50% or more of DM patients have a BP <140/90 or improve from baseline rate by 50%*	Any of the following diagnoses in the last 2 years: <ul style="list-style-type: none"> Polycystic ovary disease Gestational diabetes Steroid-Induced diabetes
		Most recent HbA1c > 9	20% or less of DM patients have a HbA1c > 9 or improve from baseline rate by 50 %*	
Cardiovascular (IVD) Management NQF - 0075	County of pts 18 and older <ul style="list-style-type: none"> Discharged alive, between 14 and 24 months ago, for acute myocardial infarction (AMI), OR Coronary artery bypass graft (CABG), OR Percutaneous transluminal coronary angioplasty OR Diagnosis of ischemic vascular disease (IVD) in the measurement year or the year prior to the MY. 	LDL test done in the measurement year	70% or more of IVD patients have had an LDL screen done or improve from baseline rate by 50%*	None
		Patients with an LDL <100g/dL	50% or more of IVD patients have had an LDL level <100g/dL or improve from baseline rate by 50%*	
Mental Health Depression Screening RMHP Defined	Count of DM pts 18-75 DM (as defined by DM measure above) and had an OV in the last MY	Screened for depression in the last MY	50% or more of DM patients have been screened for depression or improve from baseline rate by 50%*	<ul style="list-style-type: none"> Patient refuses to participate Patient is in an urgent situation Patient's motivation to improve may impact the accuracy of results of nationally recognized standardized depression assessment tools. Patient was referred with a dx of depression Patient has been participating in on-going treatment in a preceding reporting period Severe mental and/or physical incapacity
	Count of IVD pts 18 and older (as defined by IVD measure above) and had an OV in the last MY	Screened for depression in the last MY	50% or more of IVD patients have been screened for depression or improve from baseline rate by 50%*	

Adult Measures Summary

Measure	Denominator	Numerators	Beacon Goal	Exclusions
Breast Cancer Screening NQF-0031	Count of female patients 40 – 69 y/o	Screened for breast cancer in the last 2 MYs (24 months)	60% or more of female patients have been screened for breast cancer or improve from baseline rate by 50%*	<ul style="list-style-type: none"> • Bilateral mastectomy • Two unilateral mastectomies
Tobacco Use and Cessation Intervention NQF – 0028 CORE	Count of pts 18 and older with 2 OV in the last 24 months	Count of patients who were asked about tobacco use	75% or more have been screened for tobacco use or improve from baseline rate by 50%*	None
	...of the pts above,...Count of patients who answered “yes” to tobacco use in the past 24 months	Count of patients who received cessation intervention	75% or more have been offered tobacco cessation counseling or improve from baseline rate by 50%*	

MY = Measure year (12 months prior to current month unless otherwise specified)

*A baseline rate is determined when all three of the following criteria are met. Each measure is considered for baseline individually.

1. The practice reporting a number
2. The practice is confident the number is correct
3. The reporting EMR or registry system has been validated for that measure.
